

Color Placement for Broadsheet Papers

PLEASE NOTE: Numbers in parenthesis indicate the pages that print on the same printing plate.

USE COLOR POSITIONS 1 THROUGH 4 BEFORE USING 5 OR 6**

****Exception** - If you want color in the double truck, you will need to use position 6 if your section exceeds 8 pages.

We prefer to limit sections to 16 broadsheet pages. By special request, we can print 20-page sections.

Double-Truck positions are identified by a block with "DT" typed in it.

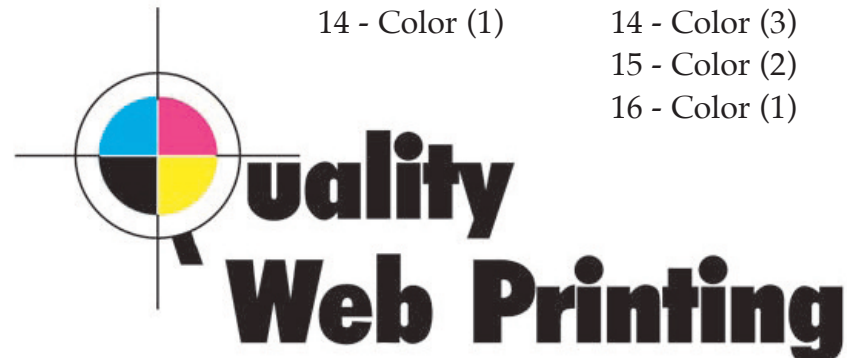

Please Note: Pages in red with asterisks are dinky pages (half sheets). Each page prints separately so printing color on both pages creates DOUBLE color charges.
